

Pricing Tiers for CGPH / Custom Gene Panel, Hereditary, Next-Generation Sequencing (NGS), Varies

Explanation: Pricing for the Custom Gene Panel is based on the number of genes selected (1, 2–14, 15–49, 50–100, 101–500, and >500) which correlates to the tier structure below. The corresponding G code will provide the price in the price portal.

Once the gene list is created, the CPT codes will be assigned and listed in the Custom Gene Ordering Tool, Step 5. They will also be listed in the confirmation email the client will receive.

Number of Genes Selected	Price Tier	Billing Code
1	Hereditary Custom Gene Panel Tier 1	G145
2–14	Hereditary Custom Gene Panel Tier 2	G146
15–49	Hereditary Custom Gene Panel Tier 3	G147
50–100	Hereditary Custom Gene Panel Tier 4	G148
101–500	Hereditary Custom Gene Panel Tier 5	G149
>500	Hereditary Custom Gene Panel Tier 6	G150
