Whole Blood Slide	Refrigerated		CARTRIDGE

Clinical & Interpretive

Clinical Information

Under normal conditions, the morphology of each red blood cell is fairly consistent in corresponding age groups. The morphology and proportion of each blood cell type may change in various hematologic diseases.

Reference Values

Only orderable as part of a profile. For more information see RBCME / Red Blood Cell Membrane Evaluation, Blood.

Not applicable

Interpretation

Description of red blood cell morphology will be provided, if applicable.

Cautions

A poorly prepared peripheral smear may result in less than optimal interpretation.
