## Collagen Type II Antibodies

**Test ID:** FFTYC

**Explanation:** IMMCO Diagnostics has had continuous problems with their testing kits for test ID FFTYC, causing delays in test results. Notification was sent on 12/16/2022 that the delay was no longer in effect. While IMMCO has resolved their kit issue, they continue to work through their backlog of samples and estimate they will be caught up and running within normal turnaround time by 1/16/2023. We apologize for any inconvenience this has caused. No further communication will be provided.

Specimen Type	Temperature	Time
Varies	Refrigerated (preferred)	7 days
	Ambient	7 days
	Frozen	365 days
