

## Thalassemia and Hemoglobinopathy Evaluation, Blood and Serum

Test ID: THEV1

### Explanation:

On the effective date, FERR/Ferritin, Serum, will change platforms and methods, moving from an immunoenzymatic assay to an electrochemiluminescence immunoassay. Result ID for FERR will need to be updated to FERR1, in the THEV1 profile.

Current Result Codes	
Result ID	Reporting Name
THEV1	Hemoglobinopathy Interpretation
HGBCE	Hb Variant, A2 and F Quantitation,B
HPLC	HPLC Hb Variant, B
FERR	Ferritin, S

New Result Codes	
Result ID	Reporting Name
THEV1	Hemoglobinopathy Interpretation
HGBCE	Hb Variant, A2 and F Quantitation,B
HPLC	HPLC Hb Variant, B
<b>FERR1</b>	Ferritin, S
