

Sexually Transmitted Infection Testing

Explanation: For the below tests, specimens submitted with a source of “Oral” or “Mouth” will no longer be acceptable for testing. Catalog information will be updated to reflect acceptable specimen types of “Oropharynx / pharynx / throat.” Other specimen sources will not be affected.

Test Code	Reporting Name
CGRNA	Chlamydia/Gonorrhoeae Amplified RNA
CTRNA	Chlamydia trachomatis Amplified RNA
GCRNA	Neisseria gonorrhoeae Amplified RNA
