

Dihydropyrimidine Dehydrogenase Genotype, Varies

Test ID: DPYDQ

Explanation:

On the effective date, DPYDQ will include the additional reference value information shown below.

Current Reference Value
An interpretive report will be provided.

New Reference Value
DPYD Phenotype: Normal metabolizer DPYD Activity Score: 2.00 DPYD Genotype: No variants were detected in the DPYD gene
An interpretive report will be provided.
