

Myasthenia Gravis/Lambert-Eaton Myasthenic Syndrome Evaluation, Serum

Test ID: MGLE

Explanation:

Assay reagent issues have resolved and testing for ARBI: Acetylcholine Receptor (Muscle AChR) Binding Antibody, Serum will resume.

Note: Due to a change in an assay reagent, direct quantitative comparison to previous test results is not advised.

The client-specific fee, honored throughout this test down time period, will be displayed as a line-item credit on client statements.
