

## Inhibin A and B, Tumor Marker, Serum

## Test ID: INHAB

**Explanation:** On the effective date, the following changes will be made to the Inhibin A and B, Tumor Marker, Serum (INHAB) assay.

| Current Specimen Stability |                          |         |  |  |
|----------------------------|--------------------------|---------|--|--|
| Specimen                   | Temperature              | Time    |  |  |
| Serum                      | Refrigerated (preferred) | 14 days |  |  |
|                            | Frozen                   | 90 days |  |  |
|                            |                          |         |  |  |

| New Specimen Stability |                          |         |  |  |
|------------------------|--------------------------|---------|--|--|
| Specimen               | Temperature              | Time    |  |  |
| Serum                  | Refrigerated (preferred) | 14 days |  |  |
|                        | Ambient                  | 7 days  |  |  |
|                        | Frozen                   | 90 days |  |  |

## **INHIBIN A, Tumor Marker**

| Current Reference Value |             |  |
|-------------------------|-------------|--|
| Males                   | <2.0 pg/mL  |  |
| Females                 |             |  |
| <11 years               | <4.7 pg/mL  |  |
| 11-17 years             | <97.5 pg/mL |  |
| Premenopausal           | <97.5 pg/mL |  |
| Postmenopausal          | <2.1 pg/mL  |  |

| New Reference Value |            |  |
|---------------------|------------|--|
| Males               | <5.0 pg/mL |  |
| Females             |            |  |
| <11 years           | <5.0 pg/mL |  |
| 11-17 years         | <98 pg/mL  |  |
| Premenopausal       | <98 pg/mL  |  |
| Postmenopausal      | <5.0 pg/mL |  |

| Current Requested Volume |
|--------------------------|
| 1.5 mL                   |

| New Requested Volume |  |
|----------------------|--|
| 1.1 mL               |  |
