

## **Interference Evaluation Heterophile, Thyroglobulin Tumor Marker, Serum**

**Test ID:** IETG

### **Explanation:**

Due to assay performance issues for the TGMS component of this profile this test will become non-orderable effective immediately. All pending orders will be completed as capacity allows. We anticipate the duration of this test down to be >30 days. A notification will be sent when testing resumes.

There is no recommended alternative.

### **Questions**
