

Extended-Spectrum Beta-Lactamase-Producing Gram-Negative Bacteria Surveillance Culture, Feces

Test ID: ESBL5

Explanation: Testing is currently delayed due to media supply backorder. The test will remain orderable, but it is possible some orders may be canceled due to the short, 4-day specimen stability. There are no recommended alternative tests available through Mayo Clinic Laboratories. An update will be provided when normal testing patterns resume or additional information is received from the media vendor.
