Due to reagent supply issues test VWD8B will become non-orderable effective immediately. The estimated duration of the test down is approximately four months. An alternative test offering is listed below. An update will be provided once testing resumes.

Recommended Alternative Test:

VWD Type 2N Binding

Test ID: ZW121

Ref Lab Code: 1089

Methodology:

Binding Assay by ELISA

Reference Values:

>=86

Necessary Information:

Complete the [Hemostasis Requisition Form](#) and submit with the sample

Specimen Requirements:

Specimen Type: Citrated plasma

Collection Container/Tube: Light-blue top (3.2% sodium citrate)

Submission Container/Tube: Plastic vial

Specimen Volume: 0.5 mL

Collection Instructions: Collect blood in a light blue top tube. Spin down and send 0.5 mL citrated plasma in a plastic aliquot tube. Ship Frozen.

Minimum Volume: 0.3 mL

Specimen Stability Information:

| Specimen Type | Temperature | Time |
|----------------------|--------------------|-------------|
| Plasma Na Cit | Frozen | 14 days |

CPT Code:

0284U

Miscellaneous Referral Test Fee:

\$389.00

Day(s) Performed: Monday through Friday **Report Available:** 14 days
